

CreamMaker® WAX

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 /
March 26, 2012 / Rules and Regulation

Revision Date: 18-Aug-2025
Supersedes: 16-Mar-2024

1 PRODUCT & COMPANY IDENTIFICATION

Product Name:	CreamMaker® WAX	Distributor:	MakingCosmetics Inc.
Synonyms:	No data available	Address:	10800 231 st Way NE Redmond, WA 98053 (USA)
INCI Name:	Cetearyl Alcohol (and) Polysorbate 60	Phone / Fax:	425-292-9502 / 425-292-9601
CAS Number:	8005-44-5, 67762-27-0, 9005-67-8	Web:	www.makingcosmetics.com
Formula:	No data available		
Product Form:	Solid		
Product Use:	Cosmetic use	Emergency Telephone Number:	1-800-424-9300 (Chemtrec)

2 HAZARDS IDENTIFICATION

Classification:	Not classified.		
Labeling:	Not a dangerous substance according to GHS.		
Hazard Pictograms:			
Hazard Statements:	H315: Causes skin irritation. H319: Causes serious eye irritation. H413: May cause long lasting harmful effects to aquatic life.		
Precautionary Statements:	P233: Keep container tightly closed. P202: Do not handle until all all safety precautions have been read and understood. P314: Get medical advice/attention if you feel unwell. P363: Wash contaminated clothing before reuse.		
Potential Health Hazards:	Eyes: May be an irritant. Inhalation: May be an irritant. Skin: May be an irritant. Ingestion: May cause nausea, vomiting, and diarrhea.		
NFPA Ratings (704):	Health	N/A	N/A
	Flammability	N/A	N/A
	Reactivity	N/A	N/A
	Specific Hazard	N/A	

3 COMPOSITION/INFORMATION ON INGREDIENTS

<u>Component</u>	<u>CAS No.</u>	<u>Weight %</u>	<u>Molecular Weight</u>
Cetearyl Alcohol	8005-44-5 / 67762-27-0	>50%	Not Available
Polysorbate 60	9005-67-8	20 - 35%	Not Available

4 FIRST AID MEASURES

Eyes:	Flush eyes with water for at least 15 minutes. If irritation persists, seek medical attention.
Inhalation:	Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration using a pocket type resuscitator. Call a physician immediately.
Skin:	Immediately remove contaminated clothing and shoes. Wash off immediately with plenty of water for at least 15 minutes. Call a physician immediately.
Ingestion:	Do Not Induce Vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:	May be combustible at high temperatures. Use appropriate media (sprayed water jet, foam, dry powder, CO2) for surrounding environment and adjacent fire. No unsuitable extinguish media listed.
Special protective equipment & precautions for firefighters:	Wear self-contained breathing apparatus and full protective clothing, including eye protection and boots. Prevent by any means available, spillage from entering drains or water course. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot.
Flash Points:	350°F (176°C)
Specific hazards arising from the chemical:	Combustible solid which burns but propagates flame with difficulty. Organic powders when finely divided over a range of concentrates may form explosive dust air mixtures and result in a fire or dust explosion. Avoid generating dust, especially clouds of dust in a confined or unventilated space, as dusts may form an explosive mixture with air, and any source of ignition will cause fire or explosion. Dust clouds generated by the fine grinding of the solid are a particular hazard. See also Stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Avoid contact with skin and eyes. Advise personnel in area and alert emergency services. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.
Methods and material for containment and cleaning up:	For small spills: Remove all ignition sources. Clean up all spills immediately. Use dry clean procedures to avoid dust generation. For large spills, contain spill as it is an environmental hazard. Moderate hazard. Dispose of absorbed material in accordance with the regulations.

7 HANDLING & STORAGE

Precautions for safe handling:	Overheating of ethoxylates/alkoxylates in air should be avoided. When some ethoxylates are heated vigorously in the presence of air or oxygen, at temperatures exceeding 320°F, they may undergo exothermic oxidative degeneration, resulting in self-heating and autoignition. Nitrogen blanketing will minimize the potential for ethoxylate oxidation. Use good personal hygiene practice. See section 8 for recommendations on the use of personal protective equipment.
Conditions for safe storage, incl. any incompatibilities:	Store in original containers. Ensure that all containers are clearly labeled and free from leaks. Reacts, possibly violently, with alkaline metals and alkaline earth metals to produce hydrogen. Should not be heated above 125°F when in contact with aluminum equipment. Store away from incompatible materials (see section 10 for incompatibilities).

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Component</u>	<u>Exposure Limits</u>	<u>Basis</u>	<u>Entity</u>
CreamMaker® WAX	Not established		

TWA: Time Weighted Average over 8 hours of work.
 TLV: Threshold Limit Value over 8 hours of work.
 REL: Recommended Exposure Limit
 PEL: Permissible Exposure Limit

STEL: Short Term Exposure Limit during x minutes.
 IDLH: Immediately Dangerous to Life or Health
 WEEL: Workplace Environmental Exposure Levels
 CEIL: Ceiling

Personal Protection:

Eyes:	Wear safety glasses.
Inhalation:	Wear a dust mask is recommended.
Body:	Wear suitable gloves and protective clothing.
Other:	Use good personal hygiene practices. Process controls which involve changing the way a job activity or process is done to reduce risk. Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically adds and removes air in the work environment. Provide eyewash stations, quick-drench showers and washing facilities accessible to areas of use and handling.

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Waxy flakes	Vapor Pressure:	No data available
Odor:	No data available	Vapor Density:	No data available
Odor Threshold:	No data available	Evaporation Rate:	No data available
Color:	White	Flammability:	None
Molecular Weight:	No data available	Upper/lower Explosive Limit:	No data available
pH:	4-8	Flash Point:	>199.4° F (93° C)
Boiling Point:	212° F (100° C)	Specific Gravity:	0.8250000
Melting Point:	113° F (45° C)	Water Solubility:	Insoluble
Relative Density:	0.8250000	Auto-Ignition Temperature:	No data available
Partition Coefficient: n-octanol/water:	No data available	Decomposition Temperature:	No data available
Viscosity:	No data available	Explosive Properties:	No data available
Oxidizing Properties:	No data available	Metal Corrosion:	No data available

10 STABILITY AND REACTIVITY

Reactivity:	No data available.
Chemical Stability:	Stable under normal conditions, unstable in the presence of incompatible materials.
Hazardous Polymerization:	No data available.
Conditions to Avoid:	Temperatures above 120° F.
Incompatible Materials:	No data available.
Hazardous Decomposition Products:	No data available.
Possible Hazardous Reactions:	No data available.

11 TOXICOLOGICAL INFORMATION

Acute Toxicity:	No data available.
Skin:	May cause skin irritation.
Eyes:	May cause eye irritation.
Inhalation:	Dust or vapors may be slightly irritating to the respiratory tract.
Ingestion:	May cause nausea and vomiting.
Carcinogenicity:	Not listed under NTP, IARC, OSHA, or GHS.
Teratogenicity:	No data available.
Germ Cell Mutagenicity:	No data available.
Embryotoxicity:	No data available.
Specific Target Organ Toxicity:	No data available.
Reproductive Toxicity:	No data available.
Sensitization:	No data available.
Chronic Toxicity:	No.

12 ECOLOGICAL INFORMATION

Ecotoxicity:	Harmful to aquatic organisms.
Aquatic Vertebrate:	No data available.
Aquatic Invertebrate:	No data available.
Terrestrial:	No data available.
Persistence and Degradability:	No data available.
Bioaccumulative Potential:	No data available.
Mobility in Soil:	No data available.
PBT and vPvB Assessment:	No data available.
Other Adverse Effects:	No data available.

13 DISPOSAL CONSIDERATIONS

Waste Residues:	Users should review their operations in terms of the applicable federal/national or local regulations and consult with appropriate regulatory agencies, if necessary, before disposing of waste product.
------------------------	--

Product Containers: Users should review their operations in terms of the applicable federal/national or local regulations and consult with appropriate regulatory agencies, if necessary, before disposing of waste product container.

The information in section 13 is for the product as shipped. Use and/or alterations to the product may change the characteristics of the material and alter the waste classification and proper disposal methods

14 TRANSPORT INFORMATION

DOT (Dept. of Transportation, USA):	PROPER SHIPPING NAME: Cleaning Compounds other than liquid.
TDG (Transportation of Dangerous Goods, Canada):	No data available.
IMDG (International Maritime Dangerous Goods):	No data available.
IATA (International Air Transport Association):	No data available.
ICAO (International Civil Aviation Organization):	No data available.

15 REGULATORY INFORMATION

TSCA Inventory Status:	Cosmetic/personal care applications not subject to TSCA.
OSHA Regulated Hazard:	No.
E C Classification:	Non-applicable.
SARA 312 Regulated Hazards:	No.
SARA 313 Regulated Hazards:	No.
EPA Registration Number:	Non-applicable.
California Prop. 65:	WARNING: This product may contain trace levels of chemicals known to the state of California to cause cancer: Ethylene Oxide (75-21-8) at <1ppm and 1,4-Dioxane (123-91-1) at <10ppm.
PA Right to Know:	None known.
NJ Right to Know:	None known.
Additional State Regulations:	None known.
Canada:	Non-applicable.

16 OTHER INFORMATION

Revision Date:	18-Aug-2025
Compliance:	This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200
Disclaimer:	This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any other process. Such information is to be the best of the company's knowledge and believed accurate and reliable as of the date indicated. However, no representation, warranty or guarantee of any kind, express or implied, is made as to its accuracy, reliability or completeness and we assume no responsibility for any loss, damage or expense, direct or consequential, arising out of use. It is the user's responsibility to satisfy himself as to the suitability & completeness of such information for his own particular use.
