4 FIRST AID MEASURES

chloride

Eyes:	Wash immediately with water for at least 15 minutes. Get medical attention if necessary.
Inhalation:	If inhaled, remove from area to fresh air, and keep warm and at rest. Get medical attention if
	respiratory irritation develops or if breathing becomes difficult.
Skin:	Wash with plenty of water and disinfectant/non-abrasive soap.

Ingestion:

Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Get medical attention, showing the SDS and label hazardous.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: Special protective equipment & precautions for firefighters: Flash Points: Specific hazards arising from the chemical:	May be combustible at high temperature. Use appropriate media (foam, carbon dioxide, dry chemical) for adjacent fire. Do not use water. Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. No data available Do not inhale explosion and combustion gases. Burning produces heavy smoke.
6 ACCIDENTAL RELEASE MEASURE	ES
Personal precautions, protective equipment & emergency procedure Environmental precautions:	Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment. Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.
Methods and material for containment and cleaning up:	Sweep up and place in suitable, closed containers for disposal. Clean surfaces thoroughly with water to remove residual contamination. Dispose of all waste and cleanup materials in accordance with regulations.

7 HANDLING & STORAGE

handling: with skin and eyes, inhalation of vapor thoroughly. Before making transfer of residuals in the containers. Contamina	See section 8 for recommendations on the use of personal protective equipment. Avoid contact with skin and eyes, inhalation of vapors and mists. Do not use empty containers before cleaning thoroughly. Before making transfer operations, assure that there are no incompatible material residuals in the containers. Contaminated clothing should be changed before entering eating areas. Do not eat or drink while working. Keep container closed when not in use.
Conditions for safe storage, incl. any incompatibilities:	Store in cool, dry well-ventilated area. Keep away from heat and incompatible materials (see section 10 for incompatibilities).

Personal Protection:

i ci sonat i i ot	
Eyes:	Not needed for normal use. Operate according to good working practices.
Inhalation:	Control worker exposure to below detectable levels. However, if adequate ventilation is not available, us a NIOSH-approved respirator for organic vapors and/or dusts. Where appropriate, use closed systems to transfer and process this material. If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant. Use local exhaust as required to capture all airborne vapors and dust.
Body:	No special precautions must be adopted for normal use.
Other:	Do not take internally. Do not eat or drink when handling. Provide eyewash stations, quick-drench
	showers and washing facilities accessible to areas of use and handling.
