5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:	Not considered flammable but may burn at high temperatures. Product is not explosive. Use appropriate media (water spray, dry chemical, foam, carbon dioxide) for surrounding environment and adjacent fire. Do not use heavy water stream of water as it may spread fire.
Special protective equipment & precautions for firefighters:	Wear self-contained breathing apparatus and full protective clothing, including eye protection and boots. Exercise caution when fighting any chemical fire. Use water spray or fog for cooling exposed containers. Do not allow runoff from fire fighting to enter drains or water courses.
Specific hazards arising from the chemical:	Hazardous reactions will not occur under normal conditions. See also Stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Do not get in eyes. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.
Methods and material for containment and cleaning up:	Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill. Dispose of absorbed material in accordance with the regulations.
