Moisture REG

Specification Sheet

Description: Effective moisturizer complex consisting of five components that regulate water loss in the skin and build a protective layer. White pastilles or flakes, bland odor. Oil soluble, not water-soluble.

CAS: 1190-63-2, 67166-49-8, 36653-82-4, 19035-79-1, 57-11-4

INCI Name: Cetyl stearate, isostearyl isostearate, cetyl alcohol, potassium cetyl phosphate, stearic acid

Benefits:

- Very effective moisturizing complex able to regulate water loss from within by reinforcing the skin's natural barrier
- Reduces TEWL (transepidermal water loss) and forms a protective layer on the surface of the skin
- Ideal for use in both leave-on and rinse-off systems for skin and scalp
- Provides exceptional, long-lasting moisturization and skin softness

Use: Add to the oil phase of the formulas, typical use level 2 - 10% in emulsions. For external use only.

Applications: Creams, lotions, after-sun lotions, all kinds of hair care products.

Country of Origin: USA

Raw material source: Vegetable oils

Manufacture: Proprietary blend of 5 different fatty acids and fatty alcohols.

Animal Testing: Not animal tested

GMO: GMO-free

Vegan: Does not contains animal-derived components
