**Method**

Combine Phase A and blend well until dissolved. Add phase B to phase A, mixing after each using a homogenizer or sheer mixer until clear and free of lumps. It's recommended to package into light protected bottles. pH 4.0

**Properties**

Serum with a combination of a stable form of vitamin c and resveratrol. It targets multiple skin-lightening mechanisms. Has been shown to be more effective than l-ascorbic acid and kojic acid to lighten skin. Helps in reducing the appearance of aging skin due to its good antioxidant effects.
