

Marula Syndet Bar

Specification Sheet

Description: A natural, glycol-free, sulfate-free, melt-and-pour base derived from vegetable sources, combining skin mildness and high clarity. It forms clear, foaming, and cleansing bars with excellent transparency and stability. Can be customized with active ingredients, colors, exfoliants, or fragrances.

CAS: 137-16-6, 68439-57-6, 504-63-2, 56-81-5, 50-70-4, 822-16-2

INCI Name: Sclerocarya Birrea (Marula) Glucoside (and) Sodium Lauroyl Sarcosinate (and) Sodium C14-16 Olefin Sulfonate (and) Propanediol (and) Glycerin (and) Sorbitol (and) Sodium Stearate

Composition: Sclerocarya Birrea (Marula) Glucoside, Sodium Lauroyl Sarcosinate, Sodium C14-15 Olefin Sulfonate, Propanediol, Glycerin, Sorbitol, Sodium Stearate

Appearance: Clear, slightly yellow bar

Benefits:

- Natural / vegetable-derived
- Moisturizing due to Marula Oil
- Glycol- and sulfate-free
- Excellent clarity and foam quality
- Easy handling / melt & pour

Use: Can be customized with active ingredients, colors, exfoliants, or fragrances. Can be used as is, cut into pieces or melted. When melted additional ingredients can be added, then poured into a mold, and cooled to room temperature. For external use only.

Applications: Skin cleansing bars, shaving products, hair shampoo.

Solubility: Soluble in oils, alcohol & water mixtures

Preservation: Preservative-free

Storage: Should not be stored at temperatures <0°C for a long period.

Country of Origin: USA

Raw material source: Composed of naturally derived ingredients sourced mainly from plant-based feedstocks such as coconut, palm, corn, and marula. Sodium C14-16 Olefin Sulfonate, is derived from synthetic petrochemical sources.

Manufacture: The raw material is heated and melted under controlled conditions. The ingredients are then mixed and emulsified to ensure uniformity, after which the mixture is cooled. Finally, the base is molded, extruded, and cut to the desired shape and size.

Animal Testing: Not animal tested.

GMO: GMO-free

Vegan: Does not contain animal-derived components.
