

Sage Extract

Specification Sheet

Description: *Salvia officinalis* (sage) derived from the leaves and whole plant of sage. Contains 20% extract dissolved in water and glycerin, preserved with phenoxyethanol. Light to medium amber liquid, typical odor. pH 4-6.5. Water-soluble

CAS: 56-81-5, 7732-18-5, 84082-79-1, 122-99-6

INCI Name: Glycerin, water, *Salvia officinalis* (Sage) extract

Benefits:

- Found to be able to reduce irritated skin
- Can purify skin and often used to help controlling dry and itchy scalp

Use: Add to formulas to the water phase. Typical use level: 3 - 5%. For external use only.

Applications: Skin and hair care products, shampoos and conditioners, scalp toners, face toners and moisturizers, after shaves and deodorants, antiperspirants.

Country of Origin: USA

Raw material source: *Salvia officinalis* (Sage), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from organically grown, pesticide-free materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 20 % concentrate and 80% diluents.

Animal Testing: Not animal tested

GMO: GMO-free, but not certified

Vegan: Yes
