

Sage Extract

Specification Sheet

Description: Salvia Officinalis (sage) derived from the leaves and whole plant of sage. Contains 20% extract dissolved in water and glycerin.

CAS: 56-81-5, 7732-18-5, 84082-79-1

INCI Name: Glycerin, Water, Salvia Officinalis (Sage) Extract

Composition: Glycerin, Water, Salvia Officinalis (Sage) Extract, Phenoxyethanol

Appearance: Medium to Dark Amber, characteristic odor.

Benefits:

- Found to be able to reduce irritated skin
- Can purify skin and often used to help controlling dry and itchy scalp.

Use: Add to formulas to the water phase. Typical use level: 3 - 5%. For external use only.

Applications: Skin and hair care products, shampoos and conditioners, scalp toners, face toners and moisturizers, after shaves and deodorants, antiperspirants.

Solubility: Water-soluble

Preservation: Phenoxyethanol

Storage: Store in a closed container in a dry, light protected area, at room temperature.

Country of Origin: USA

Raw material source: Salvia officinalis (Sage), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from organically grown materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 20 % concentrate and 80% diluents.

Animal Testing: Not animal tested
