

## Jojoba Pearls, Strawberry Red

### Specification Sheet

**Description:** Jojoba pearls are tiny, spherically shaped beads consisting of hydrogenated natural jojoba oil (jojoba wax/esters). Pearl size (20/40 mesh size or 425-850 microns) suitable for gentle facial exfoliation and body scrubs. Can be combined with other mechanical exfoliation ingredients. Colored pearls add a nice color effect in scrubs.

**CAS:** 61789-91-1, 2379-74-0

**INCI Name:** Hydrogenated Jojoba Oil, D&C Red 30

**Composition:** Hydrogenated Jojoba Oil, D&C Red 30

**Appearance:** Small, round red beads, faint odor

**Benefits:**

- Highly effective exfoliation without the abrasiveness like other natural or synthetic exfoliants.
- Provides elegant emolliency.
- Non-occlusive and non-comedogenic.
- Very mild and suitable for sensitive skin.

**Use:** Can be added to formulas as is, typical final concentration 1-15%. Add to formulation at the end when the temperature is below 100°F/40°C. Melting point of jojoba pearls is 65-72°C/150-160°F. For external use only.

**Applications:** Shampoos, specialty bar soap, lotions, creams, body washes, body scrubs, shower gels.

**Solubility:** Water-insoluble

**Preservation:** Preservative-free

**Storage:** Store in a closed container at a dry place at room temperature.

**Country of Origin:** USA

**Raw material source:** Jojoba oil

**Manufacture:** Hydrogenated jojoba oil is made by exposing jojoba oil to hydrogen in the presence of a nickel catalyst so that the oil becomes solid at room temperature and more stable.
