

Rose Essence Water

Specification Sheet

Description: Natural water infused with rose flower oils/extracts (Rosa Damascena). Has similar scents and functional properties as hydrosols

CAS: 90106-38-0

INCI Name: Rosa Damascena Flower Water

Composition: Rosa damascena flower water, sodium benzoate, potassium sorbate, citric acid

Appearance: Clear to slightly pale golden in color, medium intensity characteristic scent.

Benefits:

- Has skin-softening, humectant, rejuvenating, and anti-aging properties.
- Can be used directly on the skin without further dilution.
- Can be used in place of water in creating natural fragrances, lotions, creams, facial toners and other skin care products.

Use: Add to water phase of formulas, typical use level 1 - 100%. For external use only.

Applications: Serums, creams & lotions, toners, skin cleansers, sun- and after-sun care, sunscreens.

Solubility: Water-soluble

Preservation: Sodium benzoate, potassium sorbate, citric acid

Storage: Store in a closed container at a dry place at room temperature.

Country of Origin: USA

Raw material source: Rose (Rosa Damascena) flowers

Manufacture: Natural scent infused water with rose flower oils/extracts.

Animal Testing: Not animal tested.

GMO: GMO-free
