Skin: attention if necessary. Immediately wash the affected area with soap and plenty of water, plus remove all contaminated clothing and shoes. Seek medical attention if necessary.

Ingestion: Rinse the mouth with water. Dilute by drinking additional water and consult a physician. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperature. Use appropriate media (dry chemical, carbon dioxide, alcohol-resistant foam, water spray) for adjacent fire. DO NOT USE a solid water stream as it may scatter and spread the fire.

Special protective equipment & precautions for firefighters: Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots.

Flash Points: >93.3 °C / >200 °F

Specific hazards arising from the chemical: The burning of this product will result in the production of combustion products and gases including, but not limited to: carbon monoxide, carbon dioxide, unburned hydrocarbons (smoke). See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: Ensure adequate ventilation while handling. Wear eye protection with side shields, chemical resistant gloves, clothing that reduces skin exposure, and safety shoes. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions: Prevent further leakage or spillage if safe to do so. Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.

Methods and material for containment and cleaning up: Contain and collect spillage with non-combustible absorbent material (e.g., sand, earth, diatomaceous earth, vermiculite) and place in container(s) for disposal according to local/state/national regulations.

7 HANDLING & STORAGE

Precautions for safe handling: Use only in an area provided with appropriate exhaust ventilation. To avoid ignition of vapors by static electrical discharge, all metal part of the equipment must be grounded. Keep away from heat, sparks, and open flames. No smoking while handling. Wear personal protective equipment. Do not breath vapors or spray. Use product only in closed system. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.

Conditions for safe storage, incl. any incompatibilities: Keep container tightly closed and store in a dry and well-ventilated place. Keep away from incompatible materials (see section 10 for incompatibilities).
