

Willow Bark Extract GL

Specification Sheet

Description: Willow Bark Extract also known as European white willow and salicin willow is made from the bark of the willow plant. Contains 20% extract dissolved glycerin

CAS: 56-81-5, 84082-82-6

INCI Name: Glycerin, Salix Alba (Willow) bark extract

Composition: Glycerin, Salix Alba (Willow) bark extract

Appearance: Medium amber viscous liquid, characteristic odor

Benefits:

- Has soothing properties on irritated skin
- Works as a toning agent and mild cleanser
- Moisturizes the skin

Use: Add at the end of cosmetic formulations at room temperature. Recommended use level is 5-10%. For external use only.

Applications: Cleansers and toners, creams & lotions, masks, gels and peels.

Solubility: Water-soluble

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature

Country of Origin: USA and Bulgaria

Raw material source: Salix Alba (Willow bark), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 20 % concentrate and 80% diluents.

Animal Testing: Not animal tested
