PEG-8 Dimethicone	PEG-8 dimethicone	Silicone	1.00	1.00	0.04
Provitamin B5 (d-panthenol)	d-panthenol, water	Vitamin	0.50	0.50	0.02

Procedure

Combine phase A ingredients in a disinfected beaker and stir well to dissolve the powders. Add phase B ingredients, stirring well after each addition. Package into a spray bottle for easy use.

Properties

This leave-in adds shine and reduces frizz for fine and normal hair types. Artichoke extract coats the cuticle and cetrimonium chloride adds slip to give soft, shiny hair.
