4 FIRST AID MEASURES

Eyes: Rinse with plenty of water. Protect unharmed eye. Keep eye wide open while rinsing. Get medical attention if necessary.

Inhalation: Remove to fresh air. Keep patient warm and at rest. Rinse nose and mouth with water. Get medical attention if necessary.

Skin: Remove contaminated clothing and shoes. Wash with water and soap as a precaution. Get medical attention if necessary.

Ingestion: Clean mouth with water and afterwards drink plenty of water. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Get medical attention if larger quantity was swallowed (show this Safety Data Sheet).

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperature. Use appropriate media (water spray, dry chemical, carbon dioxide) for adjacent fire. Do not use direct water jet.

Special protective equipment & Wear self-contained, approved breathing apparatus and full protective clothing, including eye

precautions for firefighters:	protection and boots.
Flash Points:	No data available
Specific hazards arising from the chemical:	Do not allow run-off from firefighting to enter drains or water courses. Risk of ignition followed by flame propagation or secondary explosions shall be prevented by avoiding accumulation of dust, e.g., on floors and ledges. See also Stability and Reactivity section. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Forms slippery/greasy surfaces with water.
Further Information:	

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Avoid dust formation. Follow safe handling advice and personal protective equipment recommendations. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.
Methods and material for containment and cleaning up:	Do not flush with water. Sweep up and shovel. Keep in suitable, closed containers for disposal. Forms slippery/greasy surfaces with water. After cleaning, flush away traces with water. For disposal considerations see Section 13.

7 HANDLING & STORAGE

Precautions for safe handling:	Avoid creating dust. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Avoid spillage on floor as the product can become very slippery when wet. Provide appropriate exhaust ventilation at places where dust is formed. No sparking tools should be used. Dust explosion class: St1. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.
Conditions for safe storage, incl. any incompatibilities:	Protect from moisture. Store in original container between 40-77° F (5-25° C). Keep container tightly closed. Keep away from heat and incompatible materials (see section 10 for incompatibilities).
