

Hair Conditioner Base

Specification Sheet

Description: Light natural, pH-balanced hair conditioner base that will seal in moisture and reduce static electricity for easier styling. Can be further customized with various active ingredients to meet your needs. For example, addition of wheat protein and provitamin B5 will nourish and protect the hair shaft without being heavy. Additional thickeners may be required if more than 10% of additional liquid ingredients are added. Use between 2-15 minutes on hair then rinse out, the longer it is left on the hair the more intense the conditioning effect.

Ingredients: Aloe Barbadensis (Organic Aloe) Leaf Juice, Cetearyl Alcohol (and) PEG 40 Castor Oil (and) Stearalkonium Chloride, Phenoxyethanol, Hydrolyzed Wheat Protein, Panthenol, Caprylic/Capric Triglyceride, Glycerin, Limnanthes Alba (Meadowfoam) Seed Oil.

Use & Storage: Can be customized further by adding up to 10% (volume percentage) of additional liquid ingredients. Avoid strong acids as it may destabilize the conditioner. Stable about one year. Store cool and light protected. Slight separation may occur during long storage; can be easily reversed by mixing.

Appearance: Off-white light creamy texture.
