Method

Add phase A into a disinfected glass beaker and stir. Add phase B into another glass beaker and stir until uniform. Add phase B to phase A and stir well until uniform and smooth. Then add phase C one by one and stir well. Adjust viscosity with GelMaker EMU. pH about 5.7

Properties

This gel-cream utilizes our brand new SkinWhite Punarnava, an extract from the punarnava root that can even skintone and reduce the appearance of hyperpigmentation. Bisabolol soothes any irritation in the skin and licorice extract brightens the complexion. This gel-cream is lightweight enough to be used under other skincare products on a variety of skin types.
