

## Face Cleansing Oil

(Sample Recipe for PEG-40 Hydrogenated Castor Oil)

### Face Cleansing Oil

| Phase A                                       | Weight % | For 100g/3.6oz   |
|---|----------|------------------|
| Sunflower Seed Oil (emollient)                | 50 %     | 50 g / 1.8 oz    |
| Triglyceride (emollient)                      | 43.5 %   | 43.5 g / 1.5oz   |
| PEG-40 Hydrogenated Castor Oil (emulsifier)   | 3.0 %    | 3 g / 0.1oz      |
| Licorice Extract (active ingredient)          | 2.0%     | 2g / 45 drops    |
| Caprylyl Glycol EHG (humectant)               | 1.0%     | 1g / 22 drops    |
| Vitamin E (dl-alpha tocopherol) (antioxidant) | 0.25%    | 0.25 g / 6 drops |
| <b>Phase B</b>                                |          |                  |
| Fragrance (optional)                          | 0.25 %   | 0.25 g / 6 drops |

#### Method

Add ingredients in order to a clean, disinfected beaker glass. Stir well until ingredients are well mixed. Add phase B to phase A and stir well. Fill into bottle with a pump device or a dispenser cap.

#### Properties

Deep cleaning oil with emollients to lift dirt and make up with ease. Gentle on the skin, non-irritating and preservative-free. Washes off easily and leaves skin moisturized with a fresh feel. Add to wet or dry cotton pad, wipe face in a circular motion to remove makeup and dirt. Rinse off.
