<b>Environmental precautions:</b>	Avoid release to the environment. Do not contaminate water sources or sewer. Environmental manager must be informed of all major spillages. Prevent further leakage or spilling if safe to do so.
<b>Methods and material for containment and cleaning up:</b>	Sweep up and place in suitable, closed containers for disposal. Pick up and arrange disposal without creating dust. Dispose of all waste and cleanup materials in accordance with regulations.

## 7 HANDLING & STORAGE

<b>Precautions for safe handling:</b>	Avoid formation of respirable particles. Avoid exceeding the given occupational exposure limits. See section 8 for recommendations on the use of personal protective equipment. Smoking, eating, and drinking should be prohibited in the application area. Avoid dust formation. Provide appropriate exhaust ventilation at places where dust is formed. Take precautionary measures against static discharges. Keep container closed when not in use.
<b>Conditions for safe storage, incl. any incompatibilities:</b>	Store in cool, dry well-ventilated area (59-77°F / 15-25°C). Keep away from heat and incompatible materials (see section 10 for incompatibilities).
