

**1831 - Color Foam (100.00g)**

<b>Ingredient</b>	<b>Function</b>	<b>Percent</b>	<b>Wgt (g)</b>	<b>Wgt (oz)</b>	<b>Vol (tsp.)</b>
<b>Phase A</b>					
Distilled Water (aqua)	Diluent	89.00	89.00	3.14	17.80
Hair Dye Dark Purple (Basic blue 99, basic red 51, polyquaternium-37, hydrolyzed yeast protein)	Colorant	2.00	2.00	0.07	0.40
<b>Phase B</b>					
Bamboo Extract (glycerin, water, Bambusa vulgaris [Bamboo] extract)	Botanical	2.00	2.00	0.07	0.40
Polyglucose (decyl glucoside)	Surfactant	7.00	7.00	0.25	1.40

**Method**

Phase A: Add the water slowly to the powder under good agitation. Blend until smooth and free of lumps, use stick blender or homogenizer if needed. Phase B: Add phase B under gentle stirring until uniform. Package into a foamer bottle and use within 2 days. This formulation is preservative-free as it's meant to be used within a couple days. Tip: colors can be mixed to create additional shades.

**Properties**

Foam for a fun way to add a color accent to the hair. Bamboo Extract provides nourishing and strengthening properties. This product will stain, wear gloves and protect clothing. Let sit for 1-10minutes, depending on the hair color and color intensity you want to achieve. For less intense color the Dye can be reduced to 1%. Washes out within 6-15 shampoos, as described on the product page. Color shows best on light hair. We strongly suggest to test color in a small area first before applying it all over hair.
