

## Sodium Methyl Oleoyl Taurate

### Specification Sheet

**Description:** Mild anionic solid surfactant derived from coconuts. 25% active detergent.

**CAS:** 137-20-2

**INCI Name:** Sodium Methyl Oleoyl Taurate

**Composition:** Sodium Methyl Oleoyl Taurate, Sodium Chloride, Water

**Appearance:** White to off-white dense powder

**pH Value:** 6.5 - 8.5

**Benefits:**

- Good degreasing but still very mild cleansing agent
- Has very good foam boosting and lathering properties
- Ideal replacement for SLS (sodium lauryl sulfate)
- Hard water tolerant and stable over a wide pH range. The foaming and lathering properties in hard or soft matter resemble those of soap in soft water

**Use:** Mix with other surfactants (anionic or nonionic) at a concentration of 1-10%. For external use only.

**Applications:** Shampoos, detergent bars, bubble bath, shower gels but also facial cleansers due to its mildness.

**Solubility:** Water-soluble

**Preservation:** Preservative-free

**Storage:** Store in a closed container at a dry place at room temperature

**Country of Origin:** Germany

**Raw material source:** Plant/Synthetic- Sodium salt of oleic acid (Palm oil or coconut oil)

**Manufacture:** Sodium Methyl Oleoyl Taurate is produced by the esterification of fatty acids and Sodium Methyltaurate.
