Caprylyl Glycol

Specification Sheet

Description: Preservative and preservative-potentiator for cosmetic applications. Boosts efficacy of traditional preservatives. Is also an effective humectant and emollient providing unique skin feel.

CAS: 1117-86-8

INCI Name: Caprylyl Glycol

Composition: Caprylyl Glycol

Appearance: Clear liquid to semi-solid white paste, mild characteristic odor

Use: Recommended use level of 1-2%. Can be added directly to the formulation during pre- or post-emulsification at or below 60°C/140°F. When solidified, revert by gently warming. For external use only.

Applications: All kinds of skin and hair care products

Solubility: Soluble in glycols and alcohols

Preservation: Preservative-free

Storage: Store light-protected at a cool and dry place

Country of Origin: Mexico

Animal Testing: Not animal tested.

GMO: GMO-free

Vegan: Does not contain animal-derived components.

HS Code: 2905390000
