

Soy-Rice Peptides

Specification Sheet

Description: Botanical active complex consisting of yeast enzymes (oxido-reductases), soy peptides & rice peptides (hydrolyzed rice bran extract). Yellowish liquid, no odor. Preserved with phenoxyethanol and phenonip. Soluble in water.

CAS: 94350-05-7, 9010-10-0, 8013-01-2, 56-81-5, 7732-18-5

INCI Name: Hydrolyzed rice bran proteins, glycine soya protein, oxidoreductases, glycerin, water

Benefits:

- Has been shown in clinical studies to reduce significantly the appearance of dark circles & puffiness around the eyes
- Showed 35% reduction after 8 weeks treatment in a clinical study
- Regular application will make the skin look smooth, rejuvenated, and regenerated

Use: Can be easily incorporated into aqueous phase of formulas, should be processed at <104°F (<40°C), is stable at pH 5.5-8.0. Typical use level: 2-5%. For external use only.

Storage: Store refrigerated (4-8°C/39-46°F)

Applications: Anti-aging & anti-wrinkle creams & lotions, eye gels.

Country of Origin: Switzerland

Raw material source: Soy, rice, and yeast

Manufacture: Soy-Rice Peptides are produced by extracting proteins and peptides from specially purified natural soy and rice. Oxidoreductases (superoxide dismutase) are biotechnologically produced through isolation from natural yeast strain.

Animal Testing: Not animal tested

GMO: GMO free but not certified

Vegan: Does not contain animal-derived components
