

PEG-7 Glyceryl Cocoate

Specification Sheet

Description: Non-ionic, ethoxylated polyethylene glycol ester made from glycerin & coconut oil. HLB value 11 (gives oil-in-water emulsions).

CAS: 68201-46-7

INCI Name: PEG-7 Glyceryl Cocoate

Composition: PEG-7 Glyceryl Cocoate

Appearance: Clear oily liquid, characteristic odor.

Benefits:

- Multifunctional agent with excellent emulsifying, emollient, refatting & thickening properties.
- Very useful as surfactant and foam booster.
- Has good conditioning effect for soft and smooth skin.

Use: Can be added to formulas as is. Typical use level 1 - 10%. For external use only.

Applications: Universally applicable, especially in liquid soaps, lotions, body washes, shower gels, hair shampoos, facial cleansers, bubble baths, decorative cosmetics.

Solubility: Soluble in water & alcohols, insoluble in oils.

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature.

Country of Origin: China and Germany

Raw material source: Coconut oil and polyethylene glycol.

Manufacture: PEG glyceryl cocoate is manufactured by the ethoxylation (polymerization of ethylene oxide) of glyceryl cocoate.

Animal Testing: Not animal tested.
