Specific hazards arising from the chemical:	As a result of thermal decomposition, dangerous products (carbon monoxide (CO), carbon dioxide (CO ₂)) can form. Exposure to combustion products can be harmful to your health. Do not inhale the gases produced by explosion and combustion. See also Stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.
Methods and material for containment and cleaning up in case of spill:	The contaminated area should be immediately cleaned. Clean up the spill with non-combustible absorbent materials (soil, sand, vermiculite, diatomite, etc.). Dispose of absorbed material in accordance with the regulations.

7 HANDLING & STORAGE

Precautions for safe handling:	Avoid prolonged contact of the product with the skin and eyes. Use good personal hygiene practice. See section 8 for recommendations on the use of personal protective equipment.
