

## Exfoliating & Cleansing BHA Foam

<b>Phase A</b>	<b>Weight %For 100 g / 3.5 oz</b>	
Deionized Water (Diluent)	83.8	83.8 g / 2.956 oz
Propanediol 1,3 (Humectant)	4.0	4.0 g / 0.1411 oz
Salicylic Acid Solution (coca-midopropyl dimethylamine (and) salicylic acid) (Exfoliant)	3.0	3.0 g / 0.1058 oz
<b>Phase B</b>		
Decyl glucoside, sodium lauroyl lactylate (Surfactant)	5.0	5.0 g / 0.1764 oz
PEG-7 Glyceryl Cocoate (Emollient)	1.5	1.5 g / 0.0529 oz
Bilberry Fruit Extract (Extract)	1.5	1.5 g / 0.0529 oz
CitrusCombo (Glycerin, citric acid, lactic acid, L-ascorbic acid, didecyltrimonium chloride) (Anti-microbial)	1.0	1.0 g / 0.0353 oz
Vanilla-Grapefruit (Fragrance)	0.2	0.2 g / 0.0071 oz

### Method

Not heating required.  
Pre-mix phase A ingredients.  
Add phase B to phase A, one at the time under gentle agitation.

Test pH and adjust to pH 4.5 with TEA or a solution of sodium hydroxide.  
Fill into Foma bottles. The Foma pump device will produce a light foam. May need to be shaken before use.

### Properties

Mild exfoliating facial wash, with the new pre-dissolved salicylic acid solution. Mild and non-drying, it cleanses the skin gently and moisturizes as well.
