

## Luxurious Anti-Oxidant Serum

### Sample Recipe for Vitamin C in Silicone (20% L-ascorbic acid)

Phase A	Weight %	For 30 g / 1.1 oz
Vitamin C in Silicone	92.7 %	27.8 g / 1 oz / 5 tsp
Vitamin E Acetate	2 %	0.6 g / 13 drops
Vitamin A Microcaps	5 %	1.5 g / 1/4 tsp
Phase B		
Polyglucose (emulsifier)	0.3 %	0.1 g / 3 drops

#### Method

Give Phase A into a disinfected, glass beaker or other container and stir well until homogenous. Add phase B to phase A and stir well. The serum can be stored in a jar or in an airless treatment pump "Paris" ([http://www.makingcosmetics.com/Airless-Dispenser-Paris-1-15ml\\_p\\_391.html](http://www.makingcosmetics.com/Airless-Dispenser-Paris-1-15ml_p_391.html)).

#### Properties

Powerful antioxidant blend with a velvet feel that protects the skin from oxidative damages. It improves skin elasticity by enhanced collagen production and slows down the aging process and the signs of aging. Oxidation reactions in the skin due to the environment such as the sun, pollution and stress are the no 1 aging factors. Potent anti-oxidants can slow down the aging process. Apply twice a day best under makeup/moisturizer and under night cream.
